DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, 10, 12 and 14-17, drawn to a microinjection assembly for delivery of exogenous nucleic acid to an avian embryo, and a method for delivering exogenous nucleic acid to an avian embryo using said microinjection assembly, classified in class 119, subclass 6.8.
 - II. Claims 9, 11, 13 and 18, drawn to making transgenic avians or cloning avians, classified in class 800, subclass 21.
2. The inventions are distinct, each from the other because of the following reasons:

Claims 8 in Group I and claims 9, 11, 13 and 18 in Group II are related as subcombination and combination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because nucleic acids can be delivered to avians for the purpose of making transgenic avians or cloning avians using other microinjectors. The subcombination (delivering DNA to an avian embryo) has separate utility such as delivering marker genes for monitoring cells during embryonic development.

Art Unit: 1632

If applicants elect Group II, the steps of claim 8 will not be considered. Since the steps of delivering DNA using a microinjector are materially and distinct and separate than methods of transferring the embryo to make a transgenic avian, methods of making a transgenic avian or methods of cloning avians, restriction is proper. The burden required to search all the steps together would be undue.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
